

## HEALTH NOTES FOR JUNE.

**SPRING CATARRH.**  
LASSITUDE.  
SLEEPLESSNESS.  
IRRITABILITY.  
SPRING FEVER.  
FATIGUE.  
SKIN ERUPTIONS.  
NERVOUSNESS.  
LOSS OF APPELITE.

Spring Catarrh is a well defined Spring disease. The usual symptoms are given above. A bottle of *Peruna* taken in time will promptly arrest the course of the disease known as Spring Catarrh.

**Mica Axle Grease**

Best lubricant for axles in the world—long wearing and very adhesive.

Makes a heavy load draw like a light one. Saves half the wear on wagon and team, and increases the earning capacity of your outfit.

Ask your dealer for *Mica Axle Grease*.

**STANDARD OIL CO.**  
INCORPORATED

**DROPSY** NEW DISCOVERY.

Dr. Pierce's Great Kidney and Bladder Cure. It cures all cases of Dropsy, whether it be of the lungs, liver, or kidneys, and is the only medicine that will cure it. It is sold by all druggists and is the only medicine that will cure it.

**Where Newspapers Fail.**

Senator Curtis, of Kansas, the one-time horseman, was praising newspapers.

"They are, taken all around," he said, "wonderful institutions, and most of the complaints made against them are to the initiate as groundless as the complaint of a young lady I overheard at a race meeting.

"Plague on the old paper! They're always behind the times," she said.

"How so?" asked her husband.

"Oh, taking racing for instance! They never print the winner's name till the day after the race, when it's too late to bet."

**American Educator in Bolivia.**

The school system of Bolivia is still in a primitive and rather chaotic condition, but the government is directing its attention in this direction. To the Rev. Mr. Harrington, a Methodist missionary from the United States, the government has given a subvention of \$35,000 to look after the schools of Oruro, and if he succeeds in this undertaking, as he undoubtedly will, for he is an able and experienced educator, the school system of Bolivia may be put in his charge.—Boston Transcript.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indian has discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indian has discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar ailments, weaknesses and derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of published testimonials from afflicted women who have been cured of catarrh, leucorrhea, and other diseases, and who are now enjoying perfect health and vigor. This medicine is sold by all druggists and is the only medicine that will cure it.

## REFERS THEM TO THE LABOR BUREAU

**Roosevelt Acts On Appeals To Prevent Strike.**

**CHICAGO VOTES \$5,000 STRIKE FUND**

The President holds that no emergency exists at present which would justify executive interference, and he has referred all the appeals to the Commissioner of Labor.

Oyster Bay, N. Y. (Special).—President Roosevelt has referred to Charles P. Neill, commissioner of labor, without comment, the various appeals which have been made to him by wire and mail to intervene to prevent the threatened telegraphers' strike.

The position is taken that no emergency exists such as obtained at the time the President intervened in the anthracite coal strike, but on the contrary, the situation presented is one where action by the government, if taken at all, may properly be initiated and directed by the Bureau of Labor, of which Mr. Neill is the head.

Attention is also called to the fact that Mr. Neill has on his own motion acted with more or less success in several recent strikes simply by making an investigation and bringing to light the salient facts in the controversies, his reports being the basis on which settlement was later reached. Whether he will feel justified in pursuing the same course in the present instance is not commented on here, as the President has given Mr. Neill no intimation of any kind.

New York (Special).—The officers of the Commercial Telegraphers' Union of America received dispatches from the locals throughout the country to the effect that the adjustment of the grievances against the Western Union Telegraph Company and the Postal Telegraph Company has been postponed. A hurried meeting of the national executive committee was held and it was decided to deny the reports without delay.

President Small then sent the following "dispatches to the various locals throughout the country:

"Situation is unchanged. The apparently inspired story that adjustment of grievances is postponed is untrue. Hold yourself in readiness for 'wonderful information' soon. Take no action until authorized."

Secretary-treasurer Wesley Russell, after giving instruction to the members of the national committee, left for Chicago, where he will confer with the Chicago local regarding the grievances.

**GIVES POCAHONTAS BELL.**

Gov. Swanson Received It From Society For University.

Norfolk (Special).—The Pocahontas bell, cast from historic pieces of metal, donated for the purpose by prominent persons in various parts of the country, was formally presented to the Pocahontas Bell Association on the Exposition grounds Saturday afternoon. The bell stood on the right of the main entrance to the representation of old Fort Boone, which is Kentucky's Exposition building.

A large crowd witnessed the ceremonies. Governor Swanson, of Virginia, whose fame as an orator has been increased by his numerous speeches called forth by the Exposition, was the orator of this occasion, and the speech was one of the best that he has made. It was deep in its historic significance, and it made a pleasing and doubtless lasting impression on his audience. The Governor received the bell on behalf of the faculty of the University of Virginia, to which institution the bell will be entrusted at the close of the Exposition. Other speakers at the ceremonies were T. J. Wool, of general counsel of the Exposition, and Major Hunter.

**Building Crash Fatal.**

New York (Special).—A temporary platform, on which were piled tons of cement, on the second floor level of the frame of a skyscraper under construction at Church and Cortlandt Streets, collapsed. The heavy bags of cement crashed down to the first floor upon the timekeeper's shanty, killing James Pringle, a time clerk, and badly injuring three other employees.

**Secretary All Right.**

Sioux Falls, S. D. (Special).—Secretary of War Taft arrived here from St. Paul at 8.30 A. M. He said he had entirely recovered from his indisposition. No formal reception was planned, but several hundred people called to pay their respects to the Secretary. He attended church and at 1 o'clock left for Fort Meade with Senators Gamble and Kittredge and Governor Crawford.

**Explosion Felt 20 Miles.**

Gibbstown, N. J. (Special).—While experimenting with a new explosive at the powder works of the Dupont Powder Company, two magazines, each containing between fifteen and twenty tons of powder, were set off. The two buildings were blown to atoms, but no one was injured. The force of the explosion was distinctly felt for a distance of twenty miles.

**Fell From Big Tree.**

Oaxaca, Mexico (By Cable).—J. W. Johnson, of New York, the manager of large agricultural interests belonging to an American syndicate, died a very remarkable death near here, falling from among the branches of a great tree, said to be the largest in North America, located near this city. The authorities are of the opinion that Johnson's death was suicidal. Johnson came to this city from New York City.

**Women Die In Fire.**

Savannah, Ga. (Special).—Mrs. Thomas Cook and her daughter, Miss Estelle Fountain, were burned to death in a fire that destroyed the home of N. A. Fountain, a son of Mrs. Cook. Mr. Fountain, after groping his way through the smoke, was injured by a fall from an upper story window, but will probably recover. The flames had gained great headway when the family were aroused. Miss Fountain, after making her way from the house, ran back to don more clothing. She never appeared.

## THE NEWS OF THE WEEK

**Domestic.**

President Roosevelt issued an executive order which will permit the interchange of employment in the federal forest service, the biological service and certain employments under state and territorial governments.

George F. Baer, president of the Reading, was served to appear before the Interstate Commerce Commission in the hearing which has been instituted against the anthracite railroad companies in Philadelphia.

Harry Orchard told a remarkable story, to the effect that the famous Pinkerton detective, McParland, had used the Bible to convert Orchard to Christianity and then confess his crimes.

President Roosevelt has confirmed the sentence of hanging imposed by court-martial on Private William Taylor for murdering his superior officer in the Philippines.

The General Electric and the Edison Companies have filed with the Interstate Commerce Commission complaints against the New York Central.

Lemert S. Cook was convicted in Pittsburgh on the charge of being involved in the rehypothecation of the securities of the Enterprise Bank.

The Supreme Conclave, Improved Order of Heptasophs, re-elected officers and decided upon Boston as the meeting place two years hence.

The torpedo-boat destroyer Blakeley was rammed by the destroyer Whipple at the Norfolk Navy Yard and put out of commission.

The body of R. H. Dodson, coxswain of the ill-fated launch of the battleship Minnesota, was found in Hampton Roads.

George Thompson died from heart disease upon seeing the piano factory in which he worked in New York on fire.

Five thousand invitations were issued for the wedding of Miss Fish, daughter of Mr. and Mrs. Stuyvesant Fish, and Albert Z. Gray, son of Judge Clinton Gray.

John Scory and Joseph Totarello, Italians, fought a duel in the dark in a Boston hallway until one fell unconscious over the dead body of the other.

The United States government entered suit against 14 railroad and coal companies in Pennsylvania alleging to represent the Hard Coal Trust.

Ambassador Bryce, of Great Britain, in an address before the University of Illinois, declared a democracy the best form of government.

Harry Orchard detailed his plot to kidnap a banker's son and kill Governor Steubenberg, and added burglary to his crimes.

The body of John Thomas, who said he taught telegraphy to Thomas A. Edison, lies unclaimed in the Chicago Morgue.

Louis Vollet, who was adrift off Newfoundland 14 days in a fisherman's yawl, was picked up by the Cunarder Carmanla.

Dr. Cyrenus A. David, a prominent Chicago physician, died of blood poisoning contracted while operating on a patient.

Reese G. Brooks, banker and coal operator of Scranton, Pa., is dead.

The Convention of the Western Federation of Miners sent a telegram to Haywood, on trial in Boise, Idaho, which reads: "Fifteenth annual convention sends greetings. Confident of your innocence, and we are with you until your honor is vindicated and your freedom assured."

Judge Chamberlain, of Concord, N. H., announced that he would appoint a master to inquire into the competency of Mrs. Mary Baker G. Eddy. The appointment will not be made for several days.

A survey has been ordered for a 50-foot canal between Cape May, N. J., and Bay Head, N. J.

The United States Steel Corporation has let contracts for 6,000 steel cars.

A receiver is to take charge of the Waters-Pierce Oil Company, in Texas.

Crops in New England are backward owing to weather conditions.

**Foreign.**

The Norwegian Parliament rejected by 73 to 47 votes a bill for universal suffrage for women, but adopted a bill giving 300,000 women whose husbands or themselves pay taxes the right to vote.

President Zelaya, of Nicaragua, by sending a telegram to Salvador to aid General Aguilar, who is the unionist candidate for president, has actually declared war.

The Transvaal government has decided to send home all Chinese miners as their contracts expire. Sixteen thousand will go this year.

Eight political prisoners were executed at Riga, Russia, for participating in the recent disorders in the capital.

Emperor William personally degraded Prince Frederick Henry of Prussia and ordered him to leave Germany.

Charles Takahashi, of Seattle, one of the Japanese who conferred with Ambassador Aoki in Washington on the exclusion treaty, says there is no conspiracy or alliance between the Progressive party of Japan and the Japanese of the Pacific Coast.

The French government is apprehensive of the formidable movement of the winegrowers to refuse to pay taxes until the government stops the manufacturers from adulterating wine. A revolution in the South of France is threatened.

The French Court of Appeals granted Count de Castellane's appeal and his wife will have to make her fight for separation all over again.

Twenty-eight passengers, including 12 women and children, were drowned by the sinking of the French schooner La Jolouse, off Barbados.

The Society of American Women of London entertained at a luncheon the delegates to the International Red Cross Conference.

The amnesty bill was shelved by the Russian Duma.

The International Socialist Congress at Brussels passed a resolution condemning the persecution of Socialists in Japan and the prosecution of members of the Western Federation of Miners in Idaho.

Mme. Hau, the wife of Professor Hau, wrote a letter before she committed suicide stating that it was utterly impossible for her to bear longer the grief she felt for her husband.

## COMMERCIAL COLUMN.

**Wholesale Markets.**

**Baltimore.**—Wheat—Sales of a cargo of No. 2 red reported at 92c. Sales were also made of cargoes on grade at 88c. for No. 3 red, 85 for No. 2 red, and 77 for rejected, while one small lot, by sample, went at 65c. Western opened unsettled; spot and June, 91½c.; No. 2 red Western, 92½c.; July, 91½c.

Corn—Cob corn in fair demand and steady. We quote carloads prime yellow on spot at \$2.45 to \$2.50 per bbl. Western opened steady; spot and June, 59½c. to 60c.; July, 60½c. to 61½c.

Oats—White—No. 2, 49c. to 49½c.; No. 3, 48c. to 48½c.; No. 4, 46½c. to 47c.; Mixed—No. 2, 47c.; No. 3, 46c. to 46½c.; No. 4, 45c. to 45½c.

Cheese—New, per lb., 13½c. to 14c. Eggs—We quote: Maryland, Pennsylvania and nearby, firsts, loss off, per dozen, 17c.; Western firsts, loss off, per dozen, 17c.; West Virginia, firsts, loss off, per dozen, 16½c.; Southern firsts, loss off, per dozen, 16c.; guinea eggs, per dozen, 8c. to 9c.

New York.—Wheat—No. 2 red, 97c.; No. 2, 98c.; No. 3, 96c. to 97c.; No. 1 Northern, 106½c. f. o. b. afloat; No. 2 hard, 104½c. f. o. b. afloat.

Corn—No. 2, 61½c.; elevator and 61½c. f. o. b. afloat; No. 2 white, 62½c.; No. 2 yellow, 62c. f. o. b. afloat.

Oats—Mixed, 26 to 32 lbs., 49c.; natural white, 30 to 32 lbs., 48½c. to 50c.; clipped white, 36 to 40 lbs., 43c. to 53c.

Eggs farmer; State, Pennsylvania and nearby fancy selected white, 20c.; choice, 18 to 19c.; brown and mixed, extra, 18 to 18½c.

Philadelphia.—Wheat dull and nominal; contract grade, June, 94c. to 95c.; corn dull and ¼c. lower; June, 58½c. to 59c.; oats, ½c. lower; No. 2 white natural, 50c. to 50½c.

Butter steady, fair demand; extra Western creamery, official price, 23½c.; street price, 24½c.; extra nearby prints, 26c.

Eggs steady, fair demand; Pennsylvania and other nearby firsts, free cases, 17c. to 18c.

Cheese quiet, but steady; New York, full cream, cheddar, new, 12½c.; do, fair to good, new, 11½c. to 12c.

Live poultry quiet, but steady; turkeys, 14 to 15c.; old roosters, 10 to 10½c.; spring chickens, 22 to 27c.; ducks, old, 11c.; do, spring, 14 to 15c.

**Live Stock.**

Chicago.—Cattle—Market for choice steady; others slow and dull. Common to prime steers, \$4.75 to \$6.00; cows, \$3.25 to \$5; heifers, \$3 to \$5.50; bulls, \$3.80 to \$5; calves, \$3 to \$5.50; stockers and feeders, \$3 to \$5.15.

Hogs—Market 10c. lower. Choice to prime heavy, \$5.92 to \$5.97½; medium to good heavy, \$5.90 to \$5.92½; butcher weights, \$5.95 to \$6.02½; prime mixed, \$5.90 to \$5.95; packing, \$5.40 to \$5.85; pigs, \$5.40 to \$6; selected, \$6 to \$6.05; bulk of sales, \$5.90 to \$6.

Sheep—Market 10 to 15c. lower. Sheep, \$5.25 to \$6.50; lambs, \$6 to \$8.

New York.—Beef—Nothing doing in live cattle; feeling easy; dressed beef in moderate demand at 8½ to 10c., with general sales at 9 to 9½c.

Calves—Veals, \$4.50 to \$7.25; buttermilk, \$3.50; no market for state stuff. Dressed calves weak; city-dressed veals, 7½ to 11½c.

Pittsburg, Pa.—Cattle—Choice, \$6.10 to \$6.30; prime, \$5.90 to \$6.10.

Sheep—Prime wethers, \$5.90 to \$6.10; culls and common, \$2.50 to \$4; lambs, \$5.50 to \$7; veal calves, \$7 to \$7.25.

Hogs—Prime heavies, \$6.10 to \$6.15; medium and heavy Yorkers, \$6.15 to \$6.20; light Yorkers and pigs, \$6.20 to \$6.25; roughs, \$5.95 to \$6.25.

**IN THE FINANCIAL WORLD.**

James J. Hill says wheat is good, but the crop is two weeks late.

The Girard Trust, Philadelphia, declared its semi-annual dividend of \$12 a share.

There was another decline of ¼ of a cent in the price of copper metal and copper company stocks acted accordingly.

There was a break in coffee, which was caused by the cessation of buying by the Brazilian States, but which led to rumors of serious troubles there.

From now on until July 10 the banks will prepare for the withdrawal of that \$30,000,000 of United States deposits, of which they have been notified by Secretary Cortelyou.

A despatch from Pittsburg said: "Foundry pig iron for June delivered, which until a week ago was strong at \$25 to \$25.50, valley, can be bought at \$23.50, the price which was held for third quarter."

This is one of James J. Hill's latest.

Governor Scales, of North Dakota, says the crop outlook is good in his territory, and that the whole valley of the Red River looks as handsome as an onion bed.

The regular quarterly dividends have been declared by the International Smokeless Powder Company and the Pu Pont International Powder Company. The International Smokeless Powder dividend on the common is ¼ of 1 per cent. The Pu Pont International preferred dividend is 1½ per cent.

The export of glassware manufactured in Japan has continued to increase steadily during recent years. The amount last year was \$250,000. The principal destinations are China and Korea, and next come India, Singapore, Java, Australia and the Philippines. The demand in China, the largest customer of the Japanese glass works, chiefly consists in lamps and table utensils in cheap lines.

Interboro shares in New York dropped to low record level on reports of exceptionally poor earnings.

Consul James A. Worman, of Three Rivers, Quebec, gives the world's output of aluminum at about 15,000 tons, of which, he says, the American concern located at Shawonggan Falls, Canada, supplies about 20 per cent.

Most people take more credit to the person who has inherited money than to the person who has earned it.

A girl will accept most any kind of excuse for kissing her except that you didn't mean to.

## The Aluminum Boom.

One of the striking results of the great progress of the automobile industry has been the tremendous development of the manufacture of aluminum, of which some idea may be had merely by quoting a few figures. In France no less than 35,000-horsepower are continually employed in the making of aluminum; Germany utilizes some 21,000 for the same purpose, the United States a like amount and Scotland about 6,000-horsepower. This represents something like \$2,000-horsepower in round numbers—an amount that can easily be doubled in the works now in existence. As each horsepower represents an annual output of 200 kilos of aluminum, Automobile calculations that the total yearly production is something like 16,500 tons, of which 12,500 are produced in Great Britain and on the Continent of Europe.

**Female Professor.**

Miss Marguerite R. Frink has been appointed to fill a professorship in the Colorado State Agricultural College, while the regular incumbent, Professor Howlett, is in New York City taking courses in Columbia University. Miss Frink has studied the details of dairying and is an expert in cheesemaking. The young members of society hold her in great demand. She is fond of sports and can ride a horse like a cowboy. In Denver University she was the business and social leader of her class, and managed successfully amateur theatricals.

**A Russian Pastime.**

If the human jaws need some occupation in the intervals of meals and gossip, says Health Culture, mastication could learn a lesson from the peasants of Southern Russia who exercise their teeth on the hard seeds of the Caspian sunflower.

There is not a suspicion of a stimulant about it, no chewing-gum dyspepsia or navy plug nuisance.

It is a pastime and, incidentally, an excellent dentifrice.

In Astrakhan a pint of the requisite seeds can be bought for a quarter of a penny.

**Easing His Mind.**

Rural Passenger—I hear as how accidents are quite frequent on this here railroad.

Traveling Man—Pooh, pooh! All balderdash! Why—let see—this is Thursday, 11.25 A. M.—why, man, there hasn't been an accident on this road since Tuesday night at 6.30! Do you call that frequent?—Puck.

**SUFFERED TORTURES.**

**Racked With Pain, Day and Night, For Years.**

Wm. H. Walter, engineer of Chatsworth, Ill., writes: "Kidney disease was lurking in my system for years. I had torturing pain in the side and back and the urine was dark and full of sediment. I was racked with pain, day and night, could not sleep or eat well, and finally became crippled and bent over with rheumatism. Doan's Kidney Pills brought quick relief, and, in time, cured me. Though I lost 40 pounds, I now weigh 200, more than ever before."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

**Doctors Try Another Plan.**

People who used to suffer from thirst in typhoid fever will wish they had postponed the attack until the present day, when such theories of treatment as the following from the Medical Brief prevail:

"If I were asked to name the cardinal features in the management of typhoid fever I would say (1) proper feeding, (2) the prevention of excessive waste incident to high temperature, by the use of water externally and internally, (3) elimination, through the skin, kidneys and intestinal tract, by supplying the patient with an abundance of water and keeping the body clean and comfortable."

"I make it an invariable rule to insist that the patient drink frequently and freely of water, thereby aiding elimination through the intervention of the skin and kidneys, keeping the general tone of the patient at the highest standard and the temperature is held more readily in check. In fact, I regard the internal use of an abundance of water of so much importance that I always instruct the nurse to record the quantity of water given, just as assiduously as she does the medicine and food."

**In His Last Hours.**

"My dear," moaned the patient as he tossed restlessly on his bed. "It's the doctor I'm thinking of. What a bill his will be."

"Never mind, Joseph," said his wife. "You know there's the insurance money."—Philadelphia Inquirer.

**Terrible.**

Ethel—How terrible it must be for a great singer to know she has lost her voice.

Edna—It's more terrible when she doesn't know it!—Bystander.

**WENT TO TEA**

**And It Wound Her Bobbin.**

Tea drinking frequently affects people as badly as coffee. A lady in Salisbury, Md., says that she was compelled to abandon the use of coffee a good many years ago, because it threatened to ruin her health and that she went over to tea drinking, but finally she had dyspepsia so bad that she had lost twenty-five pounds and no food seemed to agree with her.

She further says: "At this time I was induced to take up the famous food drink, Postum, and was so much pleased with the results that I have never been without it since. I commenced to improve at once, regained my twenty-five pounds of flesh and went some beyond my usual weight."

"I know Postum to be good, pure and healthful, and there never was an article, and never will be, I believe, that does so surely take the place of coffee as Postum Food Coffee. The beauty of it all is that it is satisfying and wonderfully nourishing. I feel as if I could not sing its praises too loud." Read "The Road to Wellville," in pkgs. "There's a Reason."

**Libby's Food Products**

**Libby's Corned Beef Hash**

Is made with the exact satisfying flavor you enjoy so much.

Prepared from the most select Beef in Libby's Great Waste Kitchen. Absolute purity and cleanliness guaranteed.

A Delicious Dish for Quick Service. Libby's Corned Beef Hash, while in the tin placed in boiling water for five minutes, or removed from the tin and browned in a skillet for five minutes, makes a most delightful entrée for luncheon or dinner.

Ask your grocer for Libby's and Libby, McNeill & Libby Chicago

## WORKING WOMEN, WHAT THEY SHOULD KNOW

MRS. SADIE ABBOTT MRS. PREE MCKITTRICK

Women for the most part spend their lives at home, and it is these women who are willing and ambitious that their homes shall be kept neat and pretty, their children well dressed and tidy, who do their own cooking, sweeping, dusting and often washing, ironing and sewing for the entire family, who call for our sympathy.

Truly the work of such a woman is "never done" and it is any wonder that she breaks down at the end of a few years, the back begins to ache, there is a displacement, inflammation or ulceration of the abdominal organs, a female weakness is brought on, and the struggle of that wife and mother to continue her duties is pitiful.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, is the exact medicine a woman needs whose strength is overtaxed. It keeps the feminine organs in a strong and healthy condition. In preparing for childbirth and recuperating therefrom it is most efficient. It carries a woman safely through the change of life and in making her strong and well assists her to be a good wife and mother.

Mrs. Sadie Abbott, of Jeannette, Pa., writes
